A MINI-PROJECT REPORT

ON

"KisaanSarthak"

Submitted to

Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur

in partial fulfillment of the requirement for the degree of

BACHELOR OF TECHNOLOGY

in

Computer Science & Engineering

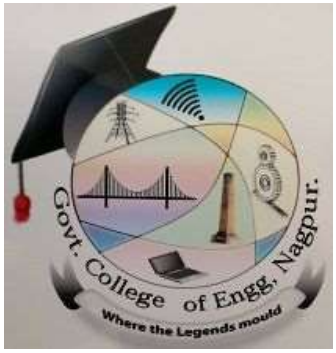
Submitted By

Kaustubh Lanjewar (42) Piyush Singh (51)

Prajwal Bhandarkar (52) Yuvraj Totade (75)

under the Guidance of

Dr. Latesh Malik



Department of Computer Science & Engineering

Government College of Engineering

Nagpur – 441108 (M. S.)

2022-2023

Certificate

This is to certify that the mini-project entitled

"KisaanSarthak"

Is a bonafide work and it is submitted to the

Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur

By

Kaustubh Lanjewar (42) **Piyush Singh (51)**

Prajwal Bhandarkar (52) **Yuvraj Totade (75)**

For the partial fulfillment of the requirement for the degree of Bachelor of Technology in Computer Science & Engineering, during the academic year 2022-2023.

Dr. Latesh Malik ***Dr. Latesh Malik***

Project Guide ***Head of CSE Dept.***

Department of Computer Science & Engineering.

Government College of Engineering,

Nagpur – 441108 (M. S.)

2022-2023

ACKNOWLEDGMENT

It gives me immense pleasure in submitting the mini-project report on

"KisaanSarthak"

to my guide and Head of Department **Dr. Latesh Malik,** Computer Science & Engineering Department, who was a constant source of guidance and inspiration through the seminar work.

I am also very thankful to all staff members of the Computer Science & Engineering department whose encouragement and suggestions help me to complete the Mini-Project work.

I also express my sincere gratitude to our respected Principal **Dr. R.P.Borkar** for providing us necessary facilities.

At last, I am thankful to my friends whose encouragement and constant inspiration helped me to complete this seminar work verbally and theoretically.

Mr. Kaustubh Lanjewar (42)
Mr. Piyush Singh (51)
Mr. Prajwal Bhandarkar (52)
Mr. Yuvraj Totade (75)
Third Year B.Tech
Computer Science & Engineering
Government College of Engineering, Nagpur

ABSTRACT

The agricultural sector, particularly the dairy and poultry industry, is a crucial sector that contributes significantly to the global economy. However, small-scale farmers often face challenges in accessing markets, negotiating prices, and making transactions, leading to lower profits and economic stability. Similarly, businesses involved in the production and distribution of dairy and poultry products also face difficulties in reaching customers in different regions. Therefore, an e-marketplace platform would provide a digital marketplace that connects dairy and poultry farmers with buyers and businesses in different regions. The e-marketplace platform would offer a user-friendly interface with essential features such as product listings, order management, payment processing, and shipment tracking to ensure a smooth and secure transaction. The platform would allow farmers to showcase their products and reach a wider audience, including potential buyers and businesses. Additionally, large-scale businesses would also benefit from the platform by accessing a wider market and increasing their customer base.
